

The State of Students and Schools in Challenging Environments in Virginia

“The Global Health Crisis & Its Impact on Student Performance”

VSBA Task Force on Students and Schools in Challenging Environments

March 2023

Special Acknowledgement

The Task Force gives special a “thank you” to Frontline Education through its partnership with VSBA. Data compiled, presented, and analyzed in this report leveraged Frontline Education Data & Analytics powered by Forecast5 Analytics software.

Our Charge & Our Mission

- ...to make recommendations to the State Board of Education and the State Department of Education on how VSBA can partner to help challenged students and schools in Virginia.
- ...to identify and share research, resources and strategies that will empower Virginia's schools to reach higher levels of student achievement.

Our Charge & Our Mission

Yesterday's Challenges

Today's Opportunities

Tomorrow's New Normal

The Pandemic

- Profile of a Virginia Graduate
- Place: Geography, Infrastructure, Demographics, Industry
- Suspensions & Discipline
- Segregation Legacy

March 2020+: COVID-19 Pandemic

School Divisions: A Snapshot

There are a total of 132 School Divisions in the Commonwealth.

- ✓ 79 of them have a student population with over 50% socioeconomic disadvantage in at least one of the last three years - 2020 was removed from the data due to the COVID-19 pandemic impacting school divisions nationwide in unprecedented ways.
- ✓ **57%** of the school divisions in the entire state ~ over **half** of the divisions greet students daily that are experiencing financial hardships at home that impact their daily lives.
- ✓ 7 of them are in a hyper-poverty status, with more than 70% of their student body identifying as socioeconomically disadvantaged.

Hyper-poverty within a school division typically follows high rates of socioeconomic disadvantage and impacts African-American and Hispanic student populations more often than other cohorts.

This presentation will explore several of the divisions identified and how they relate to student performance in both years before the global health crisis and the year following the cancellation of state assessment testing due to the pandemic.

School Divisions: A Snapshot

Division	Year	Percent of Socioeconomic Disadvantage	Total Division Enrollment

State of Virginia – English Performance 2019

In 2019, the last testing year prior to the COVID-19 pandemic of 2020, very few divisions in the Commonwealth were experiencing low rates of passing. Those that were still showed passing levels in the 40-50% range.

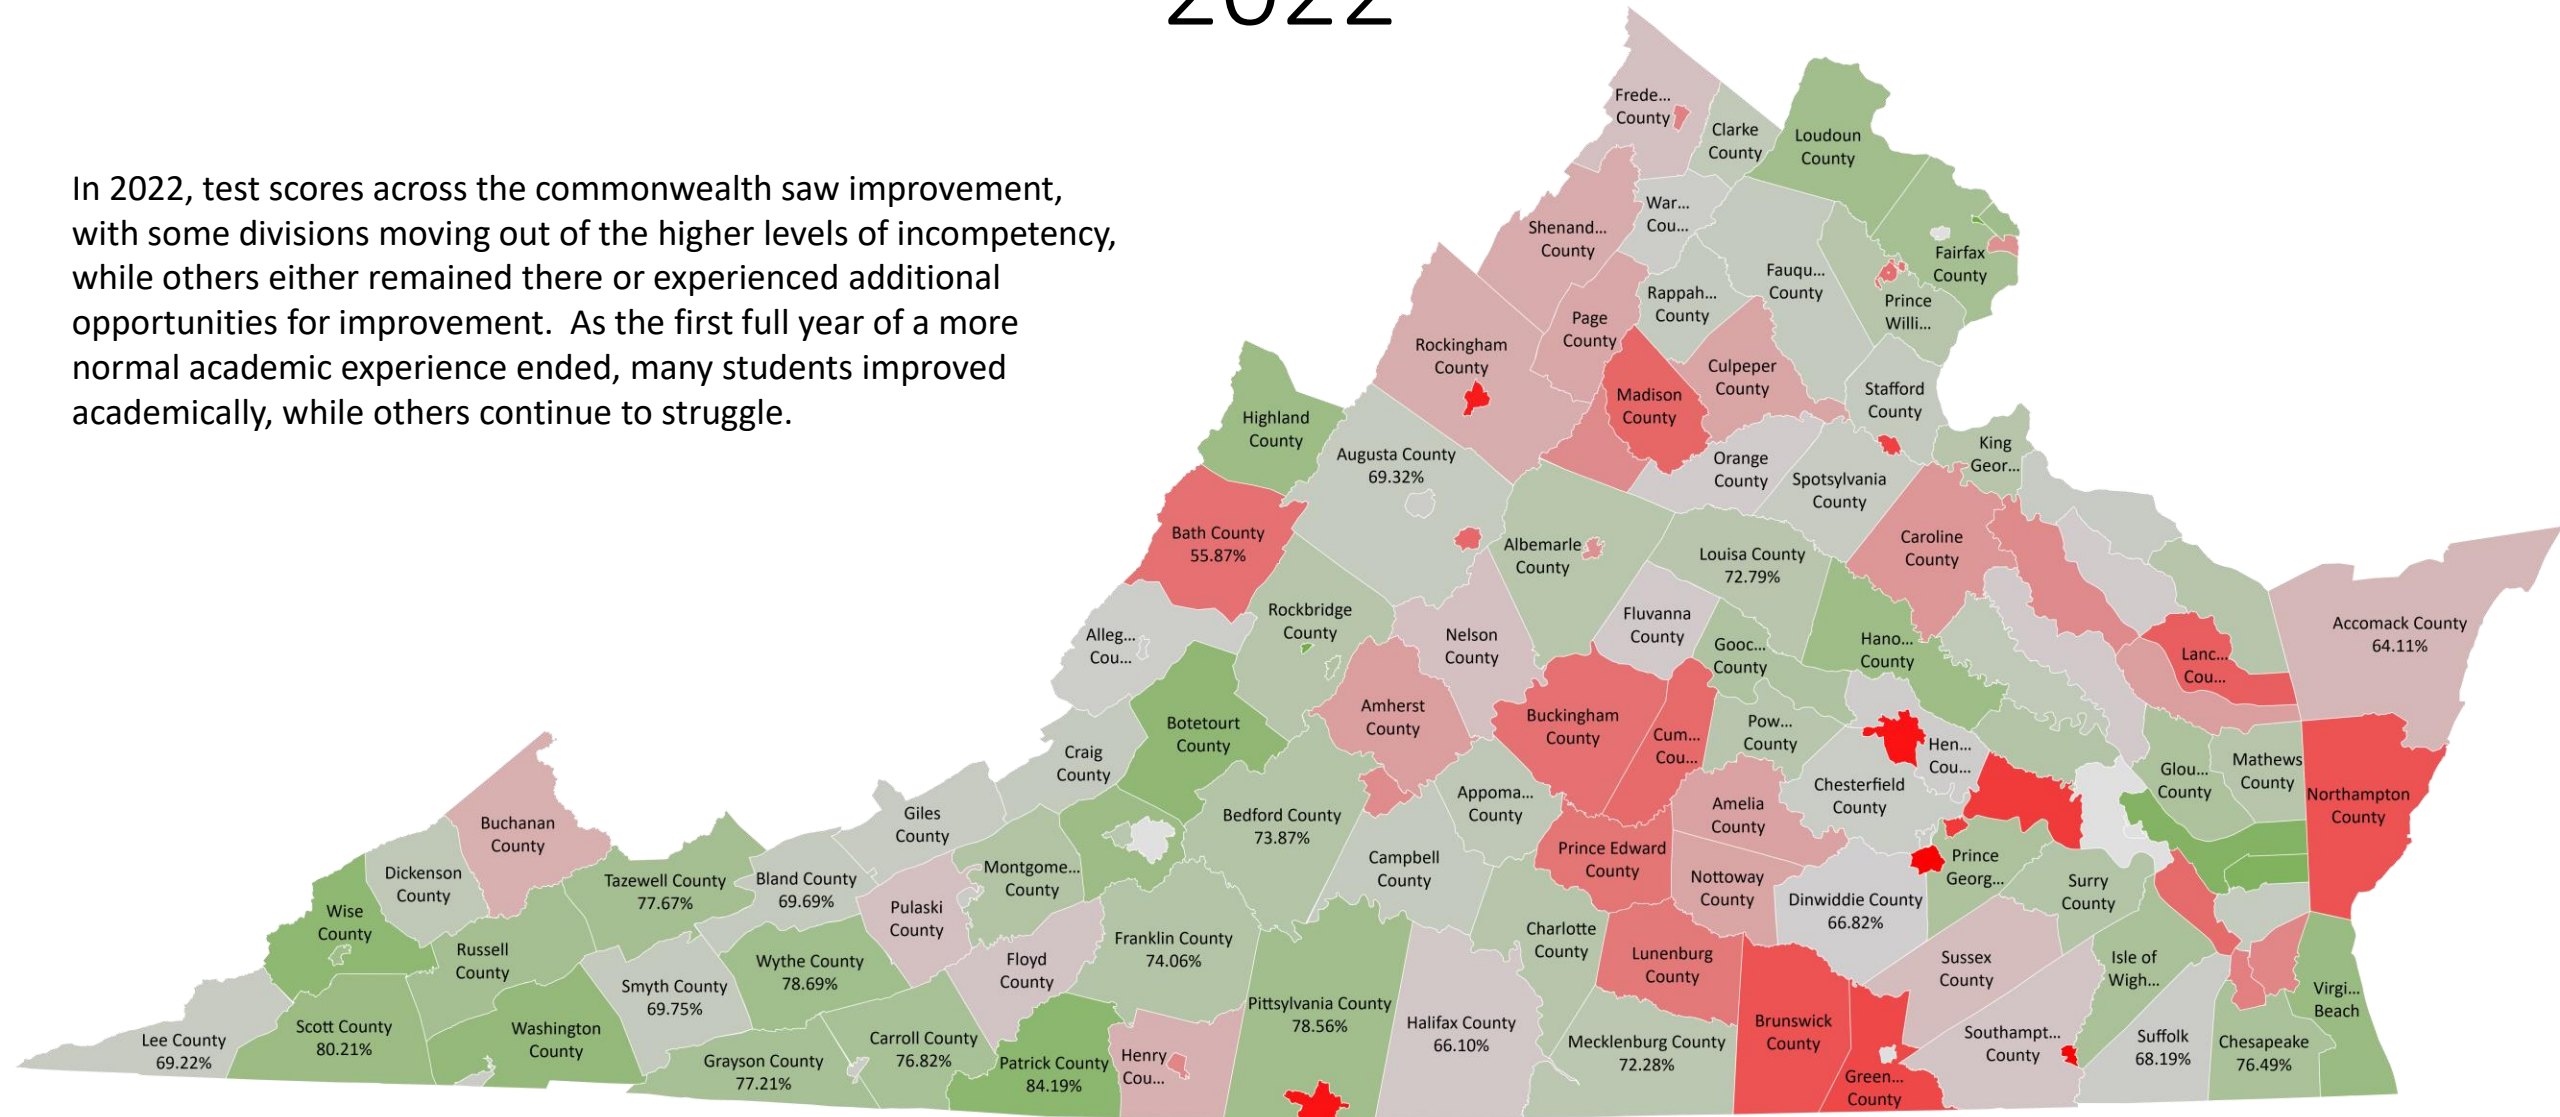

State of Virginia – English Performance 2021

In 2021, the testing year immediately following the cancellation of 2020 testing due to the COVID-19 pandemic of 2020, shows many more divisions fell into the category of higher levels of failure rates. Of the divisions that saw these declines, it can also be noted that the passing rate is closer to 30-40% and not as high as the 2019 values.

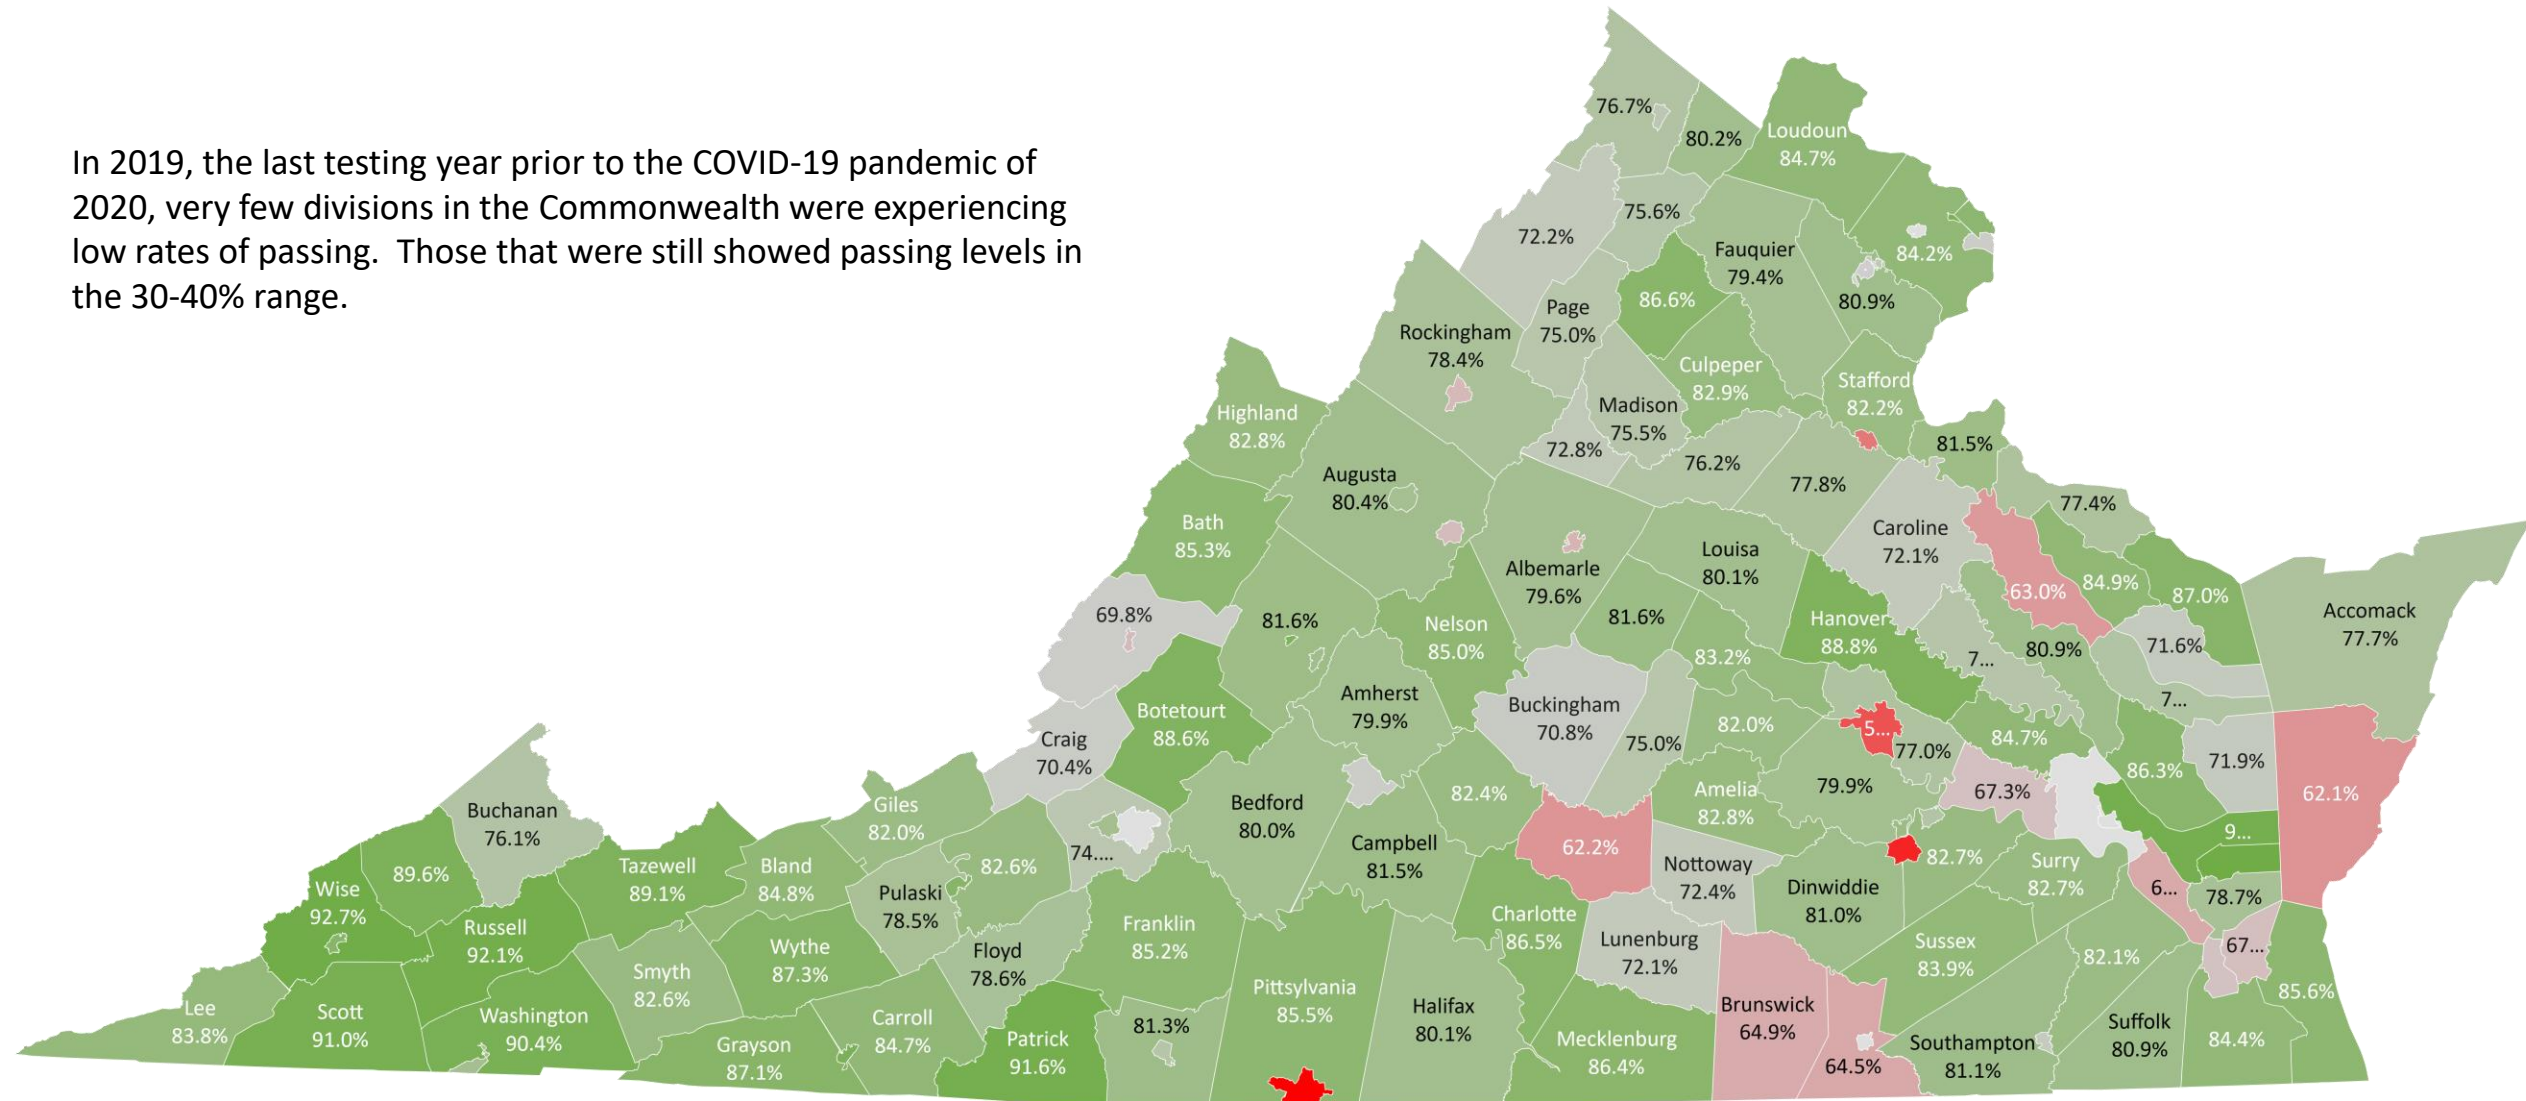

State of Virginia – English Performance 2022

In 2022, test scores across the commonwealth saw improvement, with some divisions moving out of the higher levels of incompetency, while others either remained there or experienced additional opportunities for improvement. As the first full year of a more normal academic experience ended, many students improved academically, while others continue to struggle.

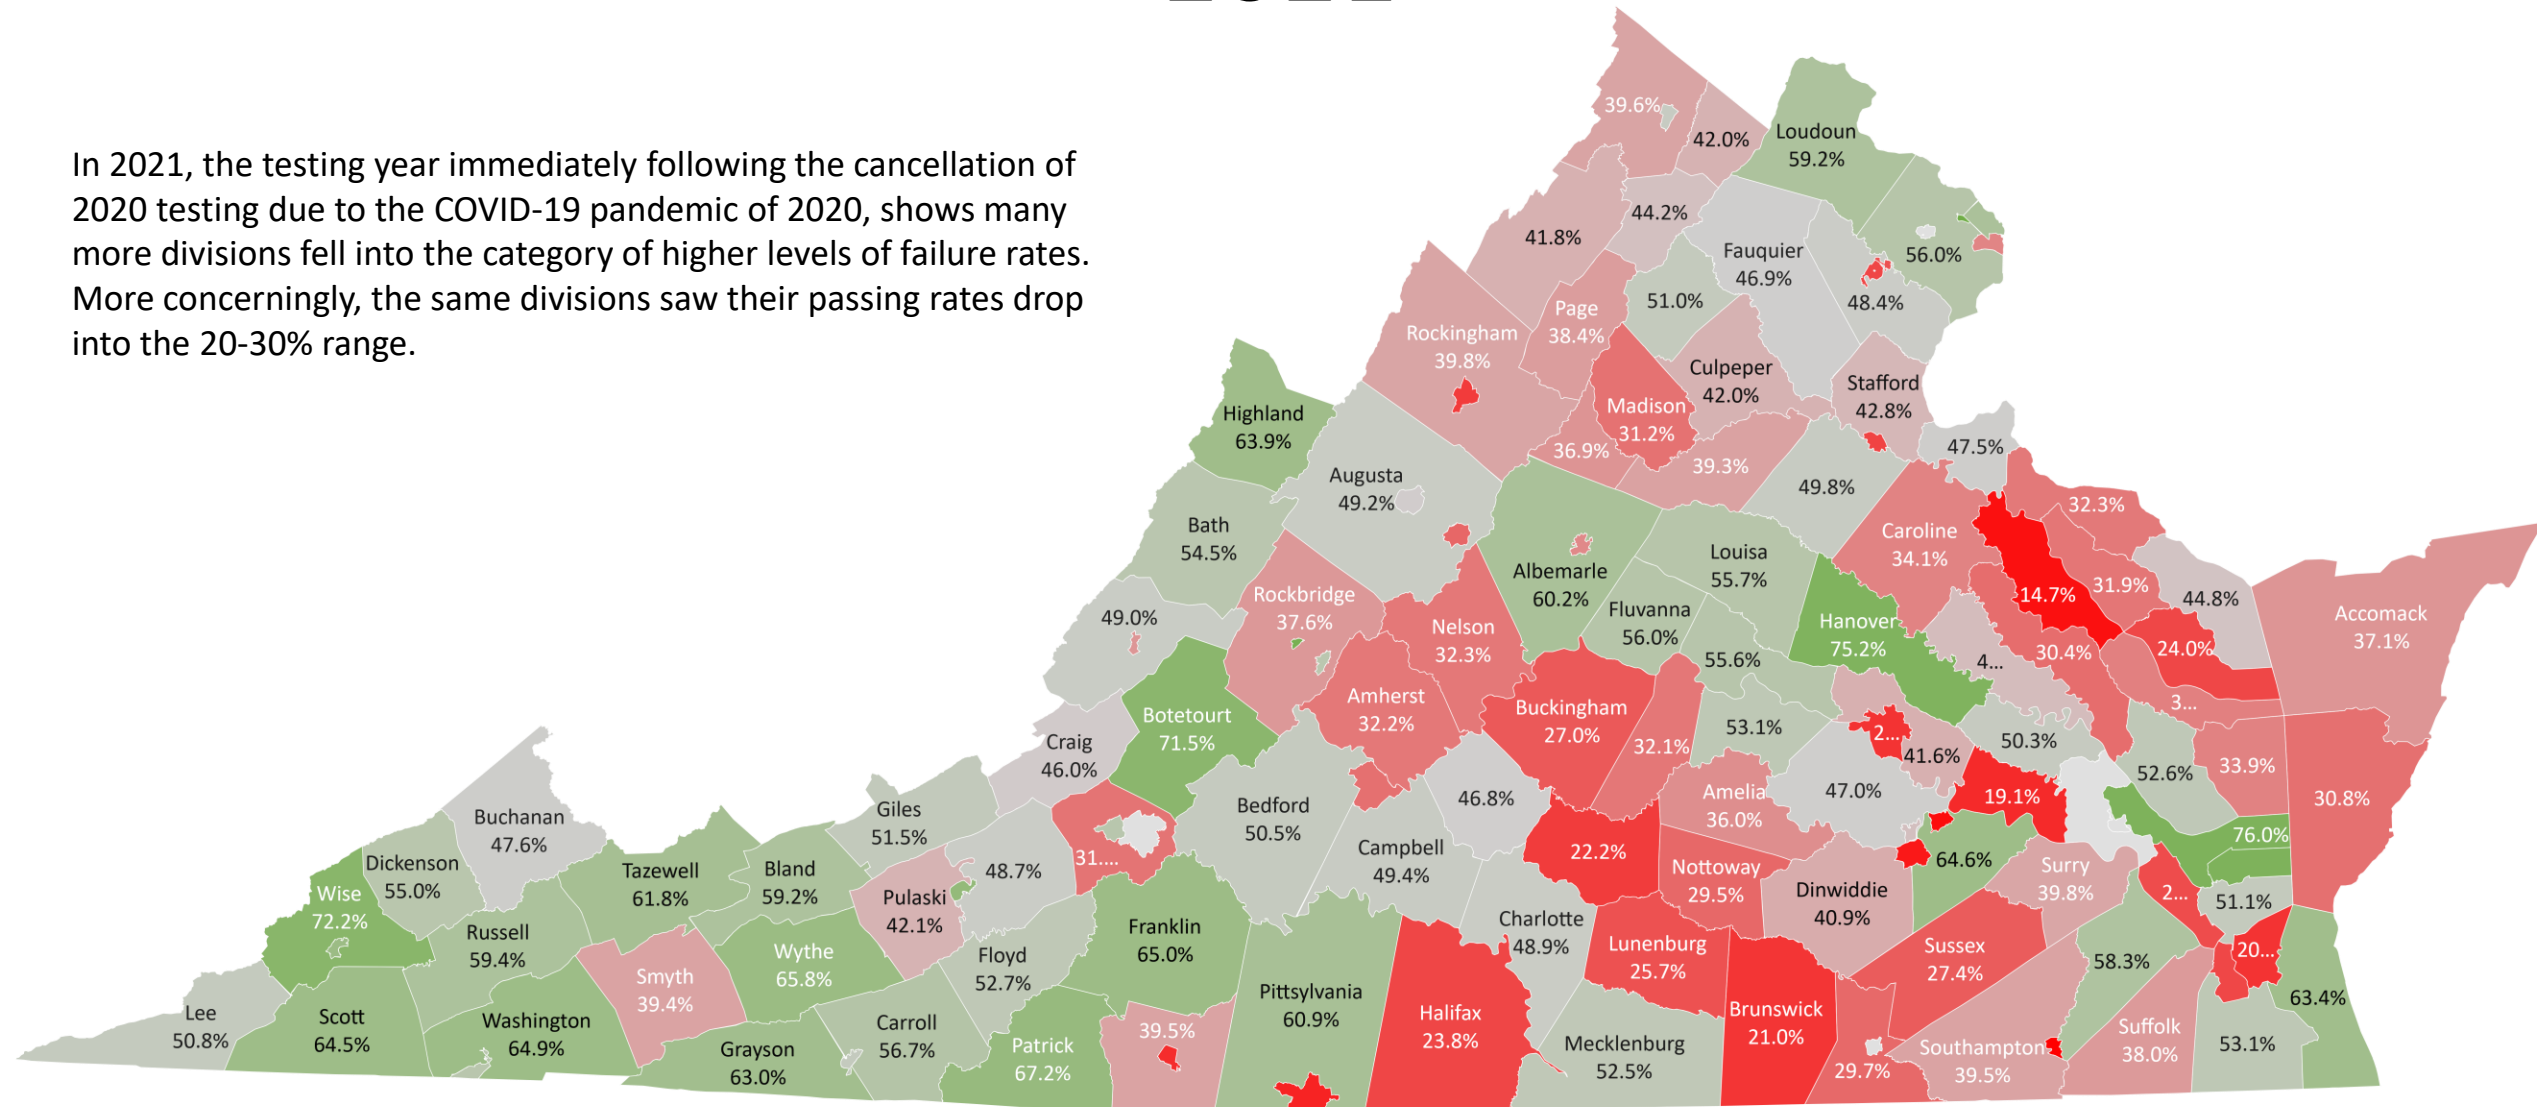

State of Virginia – Mathematics Performance 2019

In 2019, the last testing year prior to the COVID-19 pandemic of 2020, very few divisions in the Commonwealth were experiencing low rates of passing. Those that were still showed passing levels in the 30-40% range.

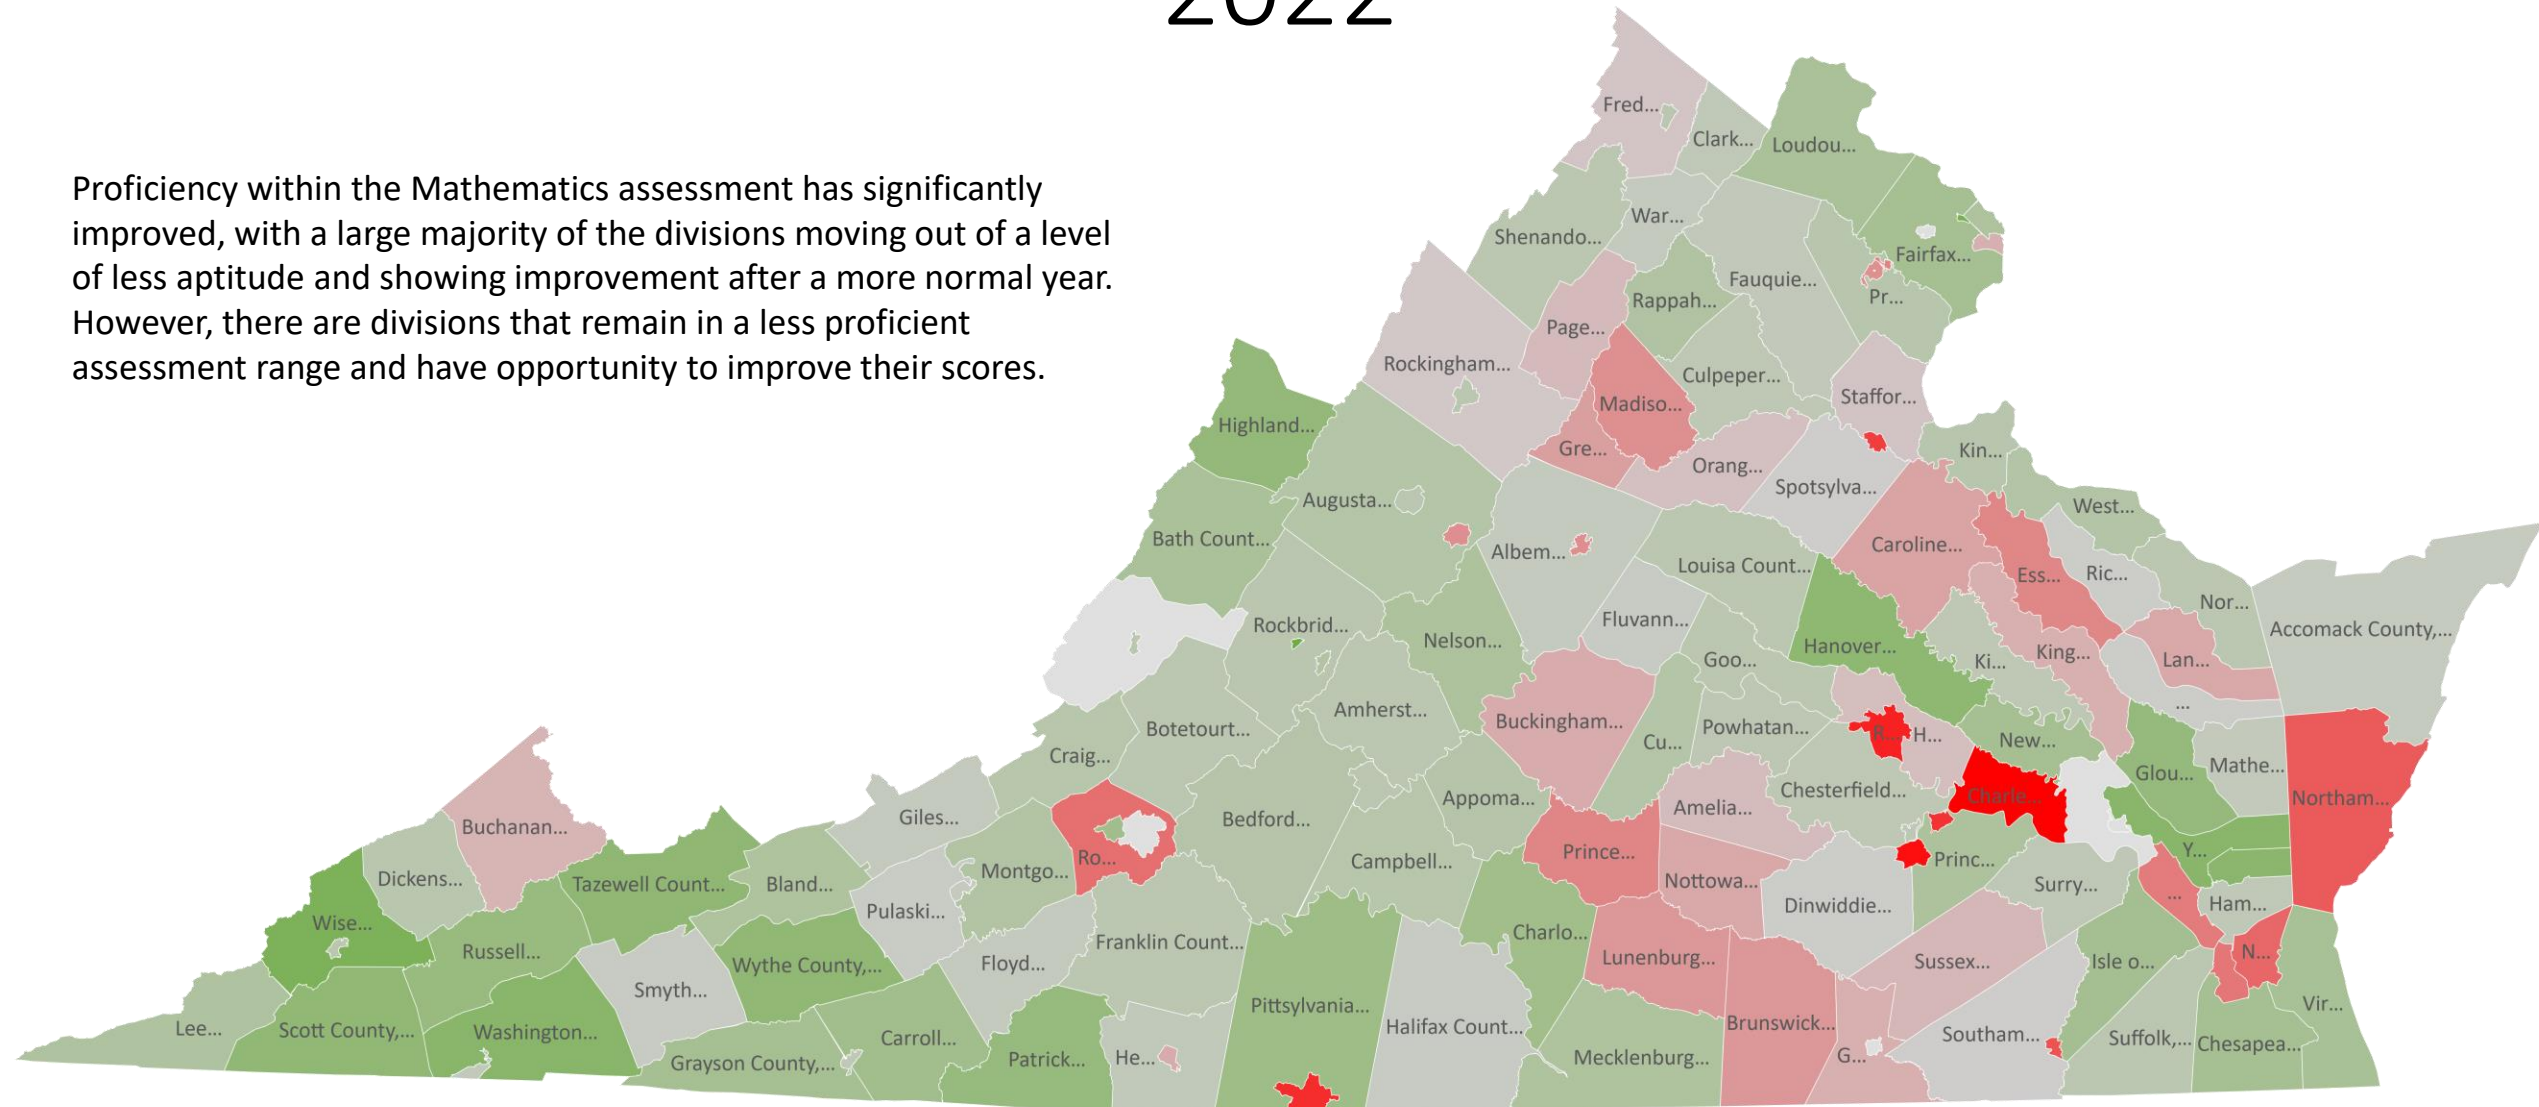

State of Virginia – Mathematics Performance 2021

In 2021, the testing year immediately following the cancellation of 2020 testing due to the COVID-19 pandemic of 2020, shows many more divisions fell into the category of higher levels of failure rates. More concerning, the same divisions saw their passing rates drop into the 20-30% range.

State of Virginia – Mathematics Performance 2022

Proficiency within the Mathematics assessment has significantly improved, with a large majority of the divisions moving out of a level of less aptitude and showing improvement after a more normal year. However, there are divisions that remain in a less proficient assessment range and have opportunity to improve their scores.

VSBA Region Snapshots and Highlighted School Divisions

There are nine VSBA Regions representing the diversity of our great commonwealth. Our Task Force notes and acknowledges the uniqueness of our regions as well as each of the 132 school divisions.

The remaining of the report provides a demographic overview of each region. To illustrate that every region warrants attention, we highlight our regions and a school division within each of the nine with deeper analysis. Data identifies that nearly all schools and every region have students living in challenging environments thus all who review our report have an active role to play to ensure every student in Virginia reaches expectations.

¹ Substantial decline in Socioeconomic Disadvantage between 2019, 2021, and 2022 is presumed to be the result of the CEP program, which provided free lunch to all students, regardless of need, in the years of 2020 and 2021 citing the COVID-19 pandemic. Prior to, and after the removal of, this waiver, families experiencing financial insecurity needed to complete an application and submit paperwork for a free or a reduced meal. In the year of 2021, this was not necessary and therefore, no incentive to disclose was present.
